(EXCLUSIVE DISPATCH.)

Feb. 26.—The total
of reparations which will
be paid to Germany by the
allies has been reduced 50 per cent., by
common sense speeding up
the peace commission's
endeavoring to hasten
the signing of a preliminary
draft from present indications,
the Germans must pay
less than four or five
times that paid by
the allies in 1918.

Original views, which were
distorted, become modified
with acceptance of the fact that
the indemnity levied upon
Germany was the greater the opportunity
that must be given the
Germans to do business to pay the
debt.

VOL. XXXVIII, FEBRUARY 28, 1919.

**NOMINATE
GILLET.**

**Chosen as Speaker
of Next House.**

**Republican Caucus Selection
is Made Unanimous on
Mann's Motion.**

**Defeated Aspirant Withdraws
When Rival Gets 138 on
First Ballot.**

BY ROBERT B. ARMSTRONG.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Feb. 27.—With
an overwhelming lead on the first
ballot Frederick Huntington Gillett
was chosen by acclamation of the
Republicans in caucus for Speaker
of the next Congress. This was
made possible by the motion of his
nearest rival, James R. Mann of
Illinois. The vote on the one ballot
was Gillett, 128; Mann, 69; Camp-
bell of Kansas, 13; Eching of Wis-
consin, 4; Mondell of Wyoming, 1.

Congressman Mann was nominated
by Julius Kahn of California, who
has been one of his close friends for
a quarter of a century. Mr. Mann's
defeat was believed due to a feeling
that he might be more vulnerable to
attack, as Speaker than some other
man. In the last twenty-four hours
it appeared certain that Gillett
would win as western men counted
on a steady support of Mann's candidacy
switched to Gillett.

As the Republicans will have a
majority in the next House, nomina-
tion was regarded by them as
equivalent to election.

OTHER NOMINATIONS.
After a brief address by the suc-
cessful candidate, the conference
nominated W. Taylor Page of Mont-
gomery county, Maryland, as clerk
by acclamation, and Joseph Rodgers
of Philadelphia, now assistant ser-
geant-at-arms, was nominated ser-
geant-at-arms, where term expires
March 4.

Representative Kahn occupied the first
half hour of the conference. Rep-
resentative Honore M. Townser of
Iowa was chosen presiding officer
and the conference then adopted a
resolution outlining the programme
of the night's work. Besides pro-
viding for the election of a candi-
date for Speaker, with two hours time
being divided equally among sup-
porters of the three aspirants, the
conference provided for the election
of committees to assign members to
various House committees, to revise
the rules and to select a committee
of the reports being submitted.

APPLAUD CANDIDATES.
Vigorous applause greeted the first
mention of the names of the candi-
dates. Representative Freeman of
Vermont nominated Mr. Gillett and
the nomination was seconded by
Representative Anderson of Min-
nesota.

Representative Kahn of Califor-
nia, nominating Mr. Mann, declared
he "knew no reason to change his
vote from the man who was the Re-
publican candidate in the last three
Congresses when we were in the
minority."

His assertion that
charges that Mr. Mann's administra-
tion in the conduct of the war were without
foundation, was applauded.

League Upholds Constitution.

**Senator Hitchcock Joins President in Contention that no
American Law Conflicts with Covenant Draft
Establishing Society of Nations.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, Feb. 27.—Presi-
dent Wilson's important expressions of opinion
on the League of Nations came to-
day from President Wilson in his
conference at the Capitol, from Sen-
ator Hitchcock, of Nebraska, chair-
man of the Foreign Relations Com-
mittee, in an address to the Senate
and from Senators and Representa-
tives who attended the dinner last
night at the White House.

President Wilson, discussing the
League with members of Congress and
also at a conference with newspa-
per correspondents, expressed con-
fidence in the success of the plan.
He also let it be known that he has
every expectation of the conclusion
of peace within a few months, and
in this connection said territorial ad-
justments presented the most delicate
problems remaining. Work on all
other questions, he said, rapidly is
nearing completion by the commis-
sions appointed at Versailles.

The President was emphatic in
expressing his belief that in no pur-
pose did the League of Nations con-
flict with the American Constitu-
tion, or with the Monroe
Doctrine. He also said he had
mind only one amendment, designed
to clarify the clause dealing with en-
forcement of territorial adjustments
before it adjourns and would
not ask any formal expressions from
the Senate from the League of Na-
tions.

**PARADE OF VETERANS
IS LED BY PRESIDENT.**
President Wilson led the parade
of troops returned from battle-
fields.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Feb. 27.—Penn-
sylvania avenue re-echoed today for
the first time in many years to the
triumphant march of American sol-
diers—men who fought in Europe
and the Stars and Stripes to help
clear the way for the spread of
democratic ideals.

President Wilson, back only a few
days from the Peace Conference in
Paris, led the parade, and, after
marching through cheering thou-
sands from the Capitol to the White
House, took his seat in the review
stand with his Cabinet, Justices of
the Supreme Court, the diplomatic
corps and high officials of the Amer-
ican and foreign military forces.

The parade was organized as a
tribute to the brave men from the
District of Columbia, but it soon
became apparent that this first re-
view of the nation's heroes was
won had more than local signifi-
cance. Men from every State and
territory, and from every branch of
the service, were represented, es-
pecially the presence of hundreds of
wounded, who, at Chateau Thierry,
Midi and the Argonne, helped
bring the war to a successful close.

The parade was a testimonial to the
patriotism and courage of the
American people, and a reminder
of the sacrifices made for the
freedom of the world.

DEAR FOLKS

THE manager of the Employment Bureau where all of the men laborers in the Wilson & Company plant, Chicago, are employed, invited me to sit in his office all of one morning and look over the men who applied for jobs. I accepted his invitation and I had a most interesting experience. I will tell you about it.

In the first place I heard practically every man say, "I want to work here, boss, because Wilson & Company treat men right and you give them a chance to get higher up in the ranks when they make good."

In the second place I noticed with great personal satisfaction, that the manager treated every applicant for a job with as much courtesy as if he were receiving him in his own home.

In the third place, I got the surprise of my life when I saw men, who had been told by the manager that he could not give them anything to do just then, leave the office with a smile and a thank you.

I wondered why men could smile and say thank you after being told that there was nothing for them to do. I asked one of them what he said to the manager and why he said that.

"Oh, the boss, there, is always kind to everybody and I like him. I know he would give me a job if I could. I am coming back again until I get a job with this company. I want to work here because I am sure of getting a square deal."

And he went away happy; so did the others.

However, men keep on applying for work in the Wilson & Company plant in spite of the fact that they know the company is always full up with laborers who never want to leave their jobs.

The manager is the type that Mr. Wilson expects to deal with his workers. He won't have a man unless he has his fellow in thoroughly developed in him—unless he is a good judge of human nature—unless he has the quality of selection who will keep up the good fellowship and the loyal spirit of the union so markedly in all departments of the Wilson & Company plant.

He made no mistake in choosing the manager of the Men's Employment Bureau, who is a man of big frame, big heart, big character and with a big idea of his duty toward his company and toward his fellow man.

Among the number who applied for jobs while I was in the manager's office was a soldier in uniform. His appearance and manner and conversation indicated that he was a refined, educated man.

The manager told him that he guessed he had made a mistake in applying to him for a job—that he didn't want an office position or, perhaps, wanted to go on the road as a salesman—that he employed men only who were willing to work with their hands. And that soldier said:

"No, I don't want an easy job. I want to work with my hands. I want myself overworked. Living in the city and going over the top made a different man of me. That hard work gave me health and strength. I never felt better in my life. I want to help my body as healthy and as strong as it is now. I want a job that requires the use of my hands, arms, legs, shoulders, feet. I want to use my head, too, in doing some labor. I want very much to work for this company. I hear everything you say so well of the organization, and I appreciate it greatly if you will give me an opportunity to work as a laborer. I'll take my chance and working my way up. The president of your company got to the top of the ladder. Maybe I can climb in the same way. I am not too particular about the kind of work I start to do."

He came to work the following day.

He has already made a hit with his fellow-workers.

They like him a lot and are proud of him.

They are true-blue Americans and think a soldier who was in fight and there is the kind of pay they want to see up to.

They think very often of their low-workers who went overseas and will never come back.

I want to tell you, folks, that it is a fellow of a lot of good people. The heart in the Wilson & Company plant shows every day. It comes out in the open. There is no doubt in my mind.

I am going to give to you in my next letter a very human story of a little side of the Wilson & Company plant in the inspiring leader in the ranks of the workers in the Wilson & Company plant.

Sincerely, William C. Freeman

BECKETT FINISHES BOMBARDIER WELLS.

LONDON, Feb. 27.—In a twenty-round boxing contest at Holborn stadium tonight Bombardier Wells, British heavyweight champion, was knocked out in the fifth round by W. O. W. Beckett of Southampton. Interest attaches to the bout, inasmuch as the winner will fight Frank Beckett for the honor of meeting Georges Carpentier. The Frenchman witnessed tonight's contest. Beckett fought for the air service in the recent Albert Hall tournament, where he defeated the American, Joe Cox.

CORONADO POLO TOURNEY.

(EXCLUSIVE DISPATCH)

SAN DIEGO, Feb. 7.—Hugh Drury and the Del Monte polo team will come to Coronado in March to play in the tournament of the Coronado Country Club.

The tournament will not be started until March 15, instead of March 1, as it is thought that more adequate accommodations will be available at Hotel del Coronado than there is possible now owing to the crowded patronage.

After these games are completed

NATIONAL DOUBLES CHAMPIONS WIN.

PHILADELPHIA, Feb. 27.—William Tilden II, Philadelphia, and Vincent Richards, New York, national doubles champions, won the Middle Atlantic indoor tennis championship by defeating Wallace Johnson and Craig Biddle, both of Philadelphia, in the final round here today, 6-8, 8-6, 6-1, 6-2.

Johnson and Biddle played brilliant tennis at the start and won their first set, 8-6. However, their best efforts proved unavailing in the next three sets, as they could not cope with the terrific pace set by Tilden and Richards at the psychological moment.

For the most part, it was rather poor tennis, with occasional reversion to the other extreme.

The totals of the pocket billiard play at the Los Angeles Athletic Club now stand as follows: George Kirkland, present champion, 384. Charles Jordan, 292. Highest run was twenty-three made by Kirkland.

WELL-KNOWN BOXER RETURNS TO CITY.

Jack Gilks, the popular boxer, who claims the former lightweight championship of the city, has returned to Los Angeles, having recently been discharged from the service. Jack has been boxing instructor at Fort Logan in Colorado and rendered valuable athletic service to the government at that post. He is receiving a cordial welcome from his many friends here and heralds his return with the announcement that he is willing to box any fighter on the Pacific Coast at 125 pounds.

BECKETT FINISHES BOMBARDIER WELLS.

LONDON, Feb. 27.—In a twenty-round boxing contest at Holborn stadium tonight Bombardier Wells, British heavyweight champion, was knocked out in the fifth round by W. O. W. Beckett of Southampton. Interest attaches to the bout, inasmuch as the winner will fight Frank Beckett for the honor of meeting Georges Carpentier. The Frenchman witnessed tonight's contest. Beckett fought for the air service in the recent Albert Hall tournament, where he defeated the American, Joe Cox.

KENNEDY SHINES AS FUNGO ARTIST.

DWARF'S EFFORTS OF JACK RYAN—ESSICK PREDICTS CLOSE RACE.

A number of spectators were attracted to Washington Park yesterday under the impression they were to witness a moving-picture stunt. When the field was alive with attached, unattached and prospects of all grades, practice was checked for a moment by the appearance on the grounds of a pair of human beings that might be termed the "long and short of it." Both were arrayed in baseball uniforms.

"Where do you get that kind of talk?" objected Red Killefer. "This isn't a film studio. The little fellow is Nick DeMaggio and the big one is Tom Kennedy, and don't be surprised if you see both of them wearing Angel uniforms this year."

It seems that about 10 o'clock in the morning Kennedy assaulted Killefer with the following plaint: "Gee, Red, if I only weighed about twenty pounds less I could grab the best job I ever had in my life. Now, here's where I take it off."

Never mind, Tom, about that other job. You just get on your feet and coax off about twenty-five pounds and I'll flash a contract under your nose that'll make your head swim.

Well, big Tom Kennedy of Hollywood, the man that put Bill Gooden on the baseball map, certainly did get busy. First, he tried batting. As fungo artist Jack Ryan has stood for years at Washington Park as pre-eminent, but his efforts were dwarfed to nothing by Kennedy's slugging. Tom put so many in the right-field bleachers that Soldier Colterjohn, the new Angel mascot, sprang and Charlie horse in climbing after them.

Kennedy then tackled second base. Everything he did was his way. He easily found a secure judgment in that big right mitt of his. Around first he did equally well. Nothing but a dandy bunch. He easily demonstrated that he is the best 225-pound baseball player in the world today. Minus a quarter of a century, evolved into a big fellow who would undoubtedly find himself with the club that Red Killefer made famous last year. He declares he will make the attempt but that if he fails, he will have the satisfaction of knowing that he fell in the front ranks bravely fighting for a good cause.

Said a friend to Bill Essick at Washington Park yesterday morning: "It looks like a two-horse race this year, Bill, between you and Red again."

"Don't know about that," smiled Essick in his quiet, frank way. "They're going to have some good clubs up north and don't make a mistake. I don't know so much about Oakland and Sacramento, but Fresno, Salt Lake and Portland. From what I pick up, are almost sure to have better teams than last year. Then there's Seattle. Clymer is almost certain to surround himself with a classy bunch. They will probably get Rath back again at third and that would make the line-up of the team second to none in the league. San Francisco is getting a dandy bunch together. Old Fitz back in right field means much to the Seals."

CHICAGO PLAYERS WIN AT BILLIARDS.

(BY A. P. NIGHT WIRE) CHICAGO, Feb. 27.—Robert N. Lord and Percy N. Collins, both of Chicago, won the first and second games, respectively, from Percy P. Trump of Pittsburgh and H. C. Allison of Detroit, in the opening session of the nineteenth annual billiard tournament of the National Association of Amateur Billiard Players here today. Lord won by a score of 80 to 177 in forty innings, with an average of 1.5 and high runs of 44, 35 and 34. Trump's total was 325, his average 1.6, and his high runs 54, 32 and 15. Collins won 100 to 277, with an average of 1.2 and high runs of 44, 35 and 45. Allison's average was 1.08 and his high runs 54, 52 and 31.

GREATEST FIELD EVER STARTED.

CHAIRMAN YOUNG SAYS SANTA MONICA RACE WILL BE REAL CLASSIC.

Santa Monica road race headquarters both in the beach city and in Los Angeles fairly hum with activity, as preparations go forward with increased smoothness for the first of the great events of the coming racing season. Chairman Young asserts with confidence that the field will be the greatest that has ever started over that course or in any similar event.

Telegraphic information has been received from W. W. Brown of Kansas City, well known on the Indianapolis Speedway, that he is as entrant and that he shipped from there for Santa Monica last Wednesday by express. The entry blank of Roscoe Sells has also been signed. Brown, who is backed by a wealthy motor enthusiast of Kansas City, has entered a Hudson twenty-four-valve special. He first entered the racing game four years ago at Indianapolis with indifferent success. Nothing daunted he came back the following year and showed considerable improvement. In 1917 his driving attracted the attention of the fans although he barely missed the money. Last year his persistence and cleverness were regarded when he landed within the money on that famous speedway.

Sells, who it must be admitted, is a real contender for the Pacific Coast championship since his performance at Bakersfield, where he won first honors from Durant, began his racing career seven years ago on dirt tracks in Indiana. In 1913, 1914 and 1915 he won the Newport race at Newport, Ind., which event at that time was of considerable importance in the Hoosier State. In 1915 and 1916 he drove a Chevrolet while "burn-storming" and annexing some coin and lots of knowledge. Early in 1917 he rode with Joe Boyer and the latter part of that season drove a Frontenac at Minneapolis. Last year he did some driving on eastern tracks until he enlisted in the aviation section and was sent to Minnesota. L. I.

Because of his mechanical knowledge he was sent to make inspections at the Packard factory and afterward was ordered to Los Angeles in connection with government work. Turned out under contract at the plant of the Harry A. Miller Manufacturing Company, Sells, who will drive a Roamer Special, appeared at Ascot two years ago, when he rode with Joe Boyer in a Frontenac.

POLY TRACK MEET THIS AFTERNOON.

The annual Poly track and field meet will be held on Praeger Park this afternoon.

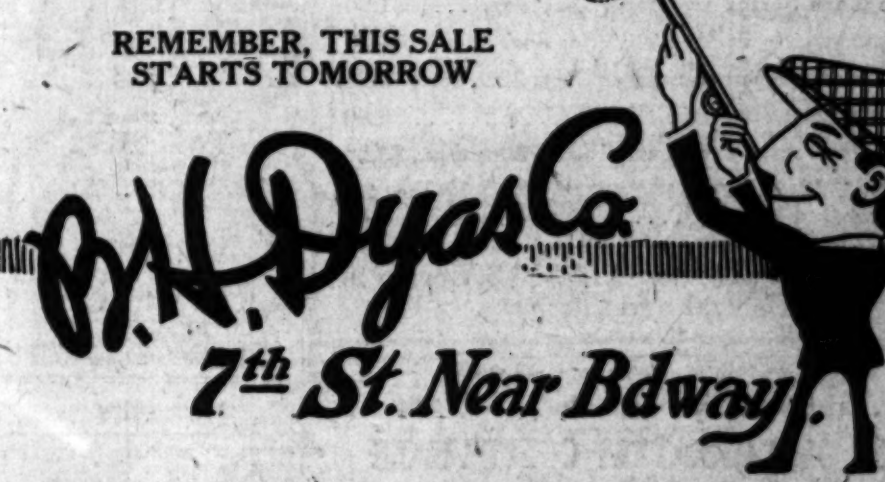

"Doc" Skinner, the Poly track coach, will be on hand to pick out possible future track stars to take the places of George Schiller and Joe Chapman, who have left Poly to go to U.S.C. Both of these young tracksters would have been a big help in annexing points for the Mechanics, if they are to be judged by their past performances in track. George Schiller was the sensational track star in the high school circles last year. He won the city, Southern California and State championship in the 440-yard dash last season. His fastest time in that event was 51.1-52. Schiller's other accomplishment was winning the open 220-yard dash in the A.A.U. meet last year in the fast time of 22.4-52. Schiller also stepped off the 100-yard dash around 16.4, and broad-jumping a little over 20ft. Chapman was Poly's best pole vaulter.

With national prohibition, what will Billy Sunday do for a living?

That Democratic Congress is about to pass. Watson, the publisher, quick!

The combs get redder as the price of eggs—hence the drop in the price of eggs.

But there ain't going to be any more goods on hand when the dry spell hits us July 1.

Why should we worry because we do not know what the Russians want? Neither do they.

In spite of the marriages of the doughboys in France the "Maid America" is still the one best bet.

There will be more than fourteen points in the argument for the sale of the coming Fifth Liberty Loan.

There are President Wilson's busy days. Visitors will please leave their cards and themselves on the outside.

Remember in planting a victory garden this spring it is not essential that you put any carrot seed in the ground.

This is the time back East, especially in Pennsylvania, when the snakes are coming out and sunning themselves on the rocks.

Homer S. Cummings was made chairman of the Democratic National Committee yesterday. There will have a chance to nod in 1920.

When it comes right down to estimating the record of the dynamic Congress it will be found that no speed records have been fractured.

In working over hours in the patch of the public business President Wilson is making himself amenable to the criticism of the unables.

A Santa Ana editor is missing. Probably hitting the high seas with his coin. Only editors are in a position to display the wealth of Cressus.

A lot of favorite sons are carrying in front of the grand stand the long-distance race in 1918. The entry for the big stakes is not yet in sight.

Getting married by mail has gone out of fashion with the soldiers. It takes too long to get the mail, and it is almost impossible for his wife to learn of her marriage.

The quicker the rules pertaining to courts-martial in the army are changed the better it will be for the country. Some of the sentences imposed by these bodies are outrageous.

No, hum, any deserving Democrats to lawyers willing to step into the shoes of Thomas Watson Gregory, attorney-general? Bro. Dockwell, what have you to say about the impeachment?

William J. Bryan is about to go on a tour of the United States. He will make a specialty of prohibition. The old-fashioned one-to-one talk has been thrown to the discard.

The school of diplomacy was in session at the White House last night with Pres. Wilson in his study. The schoolmaster will be the head boy on the back seat. Please keep still and stop rolling your eyes at the floor.

Every town in the Pacific Coast League is claiming the championship. It is a favorite outdoor sport this season of the year. But wait for Los Angeles. The old-fashioned one-to-one talk has been thrown to the discard.

Poultry often comes home roost. Mrs. Camilla Astor Spaulding, who is suing her husband, Dr. Karl Spaulding, for divorce in the Los Angeles courts, was a witness in a divorce case instituted by Spaulding's wife some years ago. The testimony for the present defendant.

It should develop that the vote necessary to ratify the peace treaty, what is there a hindrance President Wilson from ratifying the same object by a proclamation that does not require the action of the Senate? It is merely a question of time.

The action of the national authorities in placing on the list the names of aliens who are being their declaration to American citizens, resented by them when they thought there was a chance to go to war will be proved by every loyal American whether native-born or foreigner. The cowards ought to be sent to the country from whom they emigrated.

"REVELEE." You're the Dominating Nod. And you get my helpless goat. Reve-lee. You disturb my mental peace. You're the demon that destroys my military glory. Reve-lee!

When your dreadful summer comes I must do my rubber boots. Reve-lee. Or an errand sock or shoe. Reve-lee. But my trousers—pass do! And it's all because of you. Reve-lee!

When my earthly griefs are over, I reach the Golden Shore. Reve-lee. On a cloudlet I'll recline. And your spasms, I opine. Will be no affair of mine. Reve-lee!

PRICELESS FLOWERS WILL BE EXHIBITED.

SANTA BARBARA HORTICULTURAL SOCIETY PLANS FOR SPRING SHOW.

SANTA BARBARA, Feb. 27.—Plans are being perfected for the annual spring flower show, held under the direction of the Santa Barbara Horticultural Society. The society is largely composed of the gardeners and garden superintendents on the big estates at Montecito.

The wealth of floral beauty these shows bring together, if represented in dollars and cents, is priceless. There are orchid collections worth many thousands of dollars, individual specimens of orchids which cost large sums to secure from the corners of the earth, and other flowers secured from the tropics, from African jungles, from distant Asian points and China has also contributed.

Queen Honors Her After Her Arrest as Spy Suspect.

Bombed by German airmen in a raid on a hospital in which she was serving in France, nearly drowned when the ship on which she was traveling to Saloniki was torpedoed, arrested as a supposed German spy in England, and later honored by Queen Mary of England, the Duchess of Bedford and Rudyard Kipling—these are among the experiences through which Mrs. Blanche Gillingham, a Los Angeles woman, passed during her three years as a nursing sister with the Red Cross on several European battlefields. Mrs. Gillingham, wife of Lieut. A. V. Gillingham, a son of one of the directors of the Pennsylvania Railroad, has just returned to Los Angeles and is staying with friends at 534 North Hobart boulevard. Her brother is Lieut. R. J. Bond, who served with the One Hundred and Forty-fourth Field Artillery (Grizzlies) in France.

Mrs. Gillingham, as the result of her war experiences, has but scant faith in the average German soldier's ideas of civility and fair play. They are beasts and practiced on Allied prisoners the cruelties of beasts," she said. "In one of the hospitals where I was, they brought in several wounded British soldiers one day; one of them had a cross tattooed on his forehead and the words 'God Save England' tattooed on his forehead. WILL COMMAND CADETS.

To unify and expand military training in the city schools, Col. M. N. Falls, who during the war commanded the Sixty-seventh Infantry, arrived yesterday from Camp Sheridan. He will at once assume charge as commander-in-chief of the city's student cadets.

The military programme in the schools here will not be universal, nor compulsory, Deputy Superintendent Arthur Gould stated, and that it will be unified. Military training in the high schools was for a time compulsory last year, as no other means of physical training could be given, he said.

Col. Falls has been an infantry officer for twenty years. He says he is looking forward with interest to his work among the cadets. He is under the direction of the Committee on Education in Washington.

About 2000 cadets are now in the city schools. Each school heretofore has had its own organization and there has been no unified result. The work under Col. Falls will probably be extended to the intermediate schools, as it has been stated a large number of the boys have been in military training for some time.

Former Secretary of the Treasury McAdoo, Mrs. McAdoo and their little daughter, Ellen Wilson McAdoo, left the home of Douglas Fairbanks at Beverly Hills yesterday morning and motored to San Diego, where they will spend several days before returning to Santa Barbara. They left their Montecito home on Wednesday for a leisurely recreation automobile trip, and arrived at Mr. Fairbanks' home on Wednesday in time for dinner.

Mr. McAdoo, who is counsel for the "Big Four" moving-picture stars, brought with him a suit case full of scenarios that writers all over the country had sent to him following the publication of his announcement that he had become counsel for the film stars. Mr. Fairbanks and his associates will read the scenarios.

Case Against Folioemen and Detectives Goes to Grand Jury.

The case of the government against Howard E. Proffitt and W. E. Hill, suspended members of the police "Flying Squad," and Frank Edmondson, a private detective, charged with violation of the opium smuggling law, will be presented to the Federal grand jury today. Whether the complaint against them will be presented, had not been decided last evening by United States District Attorney J. O'Connor.

A mass of evidence against the Chinese has been accumulated, according to Special Agent Johnson of the United States Treasury Department, having to do with the withdrawal of eight \$200 packages of bills by the Celestial early in the present month, and their subsequent use.

But the developments of the case may be such that Hon. Hong may not be prosecuted. This will be determined today before the entire matter is put up to the inquisitorial body.

The bonds of Proffitt and Hill were reduced from \$2500 to \$1000 by United States District Attorney O'Connor yesterday, and an undertaking by a local surety company was furnished, when both men were released.

DEPARTMENT OF JUSTICE AGENT TO EXAMINE SOCIALIST'S MANUSCRIPT.

The object will be to learn whether it contains unpatriotic sentiment. If any is found, the matter will be turned over to United States District Attorney O'Connor for investigation.

Last fall Eastman, Art Young, a cartoonist employed on the Masses, and Floyd Dell and others were tried in New York on a charge of violation of the Espionage Act. The jury disagreed.

No formal complaints were made yesterday to C. L. Keap, special agent of the Department of Justice, in relation to the lecture at the Trinity Auditorium, but with the return of the Socialist speaker to the city today precautions will be taken.

San Fernando Ranchers Object to High Assessment on Crop.

The bean growers of San Fernando Valley, through the Chamber of Commerce, filed a protest yesterday with the Board of Supervisors against a high assessed value being placed on beans, which, it is declared, will be ruinous to the growers. The communication stated that it is understood the rate will be \$5.01 for each \$100 valuation for beans stored in warehouses at Zelah and Van Nuys.

The resolution accompanying the communication declares that it is impossible for the bean growers to dispose of their beans, owing to the condition of the market since the close of the war, and that the growers are in a serious financial situation. Many tons of beans are on hand upon which a tax will have to be paid.

The supervisors are urged to fix a value at the lowest possible figure to enable growers to meet expenses.

All Official World's Records Broken by De Palma and His Packard Car

Packard Aviation Motor Drives Car 149.72 Miles Per Hour

Daytona Beach, Fla., February 17th—When Ralph De Palma left Daytona Beach this evening he carried with him the distinction of having broken every official world's record on the straightaway with his new racing car equipped with the Packard Aviation Motor.

In five day's racing, beginning February

12th, he has broken records for 1 mile, 2 miles, 3 miles, 4 miles, 5 miles, 10 miles, 15 miles and 20 miles—hanging up the startling figure of 24.02 seconds to the mile, at the rate of 149.72 miles per hour.

The Packard Aviation Motor now holds all records on straightaway and circular tracks for all distances from 1/4 mile to 616 miles.

Getting the work out of the car!

This country needs—must get—the fullest possible results from every ounce of its transportation power.

There is no immediate hope of railroad betterment.

Motor transportation—whether passenger or freight—is the one great resource.

The motor truck equipment of America as it stands could deliver 30 per cent more transportation than it is giving today.

The Packard Company says this because it has developed the method, and put it into effect with nearly two thousand Packard Trucks the country over.

It has seen the methods work out. It has seen the cost figures go down month by month. It knows that the principles and methods are right.

The methods apply to any make of truck.

The man who has a transportation problem to solve cannot do better than discuss it with the Freight Transportation Department of his local Packard Branch or Packard Dealer.

No Charge. It is not even necessary that he be a Packard owner or driver.

The object is Service rather than immediate sales.

lessons of De Palma's racing car in a practical way to the Packard Passenger Car and Motor Truck! Lessons of engine design, of car design, of truck design, of balance, of the application of power,

the Packard engineering principles that made it possible.

No one knows better than the Packard Company what can be accomplished by intensive study with any problem of transportation—whether of passengers or freight, by motor carriage, by truck, by airplane, on land or in the air.

Think of the positive force exerted by this specialized Packard personnel of 18,000—working intensively on transportation problems!

Think what is already being done—and what more can be done in the future—to apply the

WHAT gives even greater interest to this achievement is the fact that many of the earlier records were long held by the German-made Blitzen-Benz car.

It seems peculiarly fitting that this new De Palma-Packard record, which breaks the last hold of the Germans on transportation records, should be achieved by the Packard Aviation Engine—the engine which was the forerunner of the Liberty Motor that broke the German supremacy in the air.

The real significance of De Palma's Packard achievement is

Newport News, Va., was taken to
the County Jail yesterday by United
States Marshal John G. Saunders of
Richmond, Va., on the charge of
taking the mails in a scheme to de-

His home is at 1249 Georgia street.
His father is a grocer.
Before Cornblatt went into the
army he carried on what was ad-
vertised as "The Tax Adjustment
Bureau," in room 719 of the Biltmore
hotel, South Broadway. In these ad-
vertisements he stated that he would
look after the interests of property
owners, advising them as to im-

they might be interested, have the

and the forfeiture of property owned
by nonresidents.

clains that he furnished much
money for his father, who continued
a grocery store on the West Side.
A number of clients who intrusted
their money to Cornblatt have
complained with Inspector Collier
that they have lost their money.
Mrs. Margaret D. Bush of 613
road, Washington, D. C., sent him
\$488.21, it is charged, for her
needs. He appropriated one-half of
the amount, it is alleged.

insistent demands, she wrote the
inspector W. O. Welch, who told her
that her property had been sold for
the nonpayment of taxes.
Previous to beginning the in-
spection work, Cornblatt was
employed as a local title and
company, where he was in charge of
the tax department, and he
much about the possibilities of mak-

"I cause commerce to stand still; I depopulate
cities and destroy nations."
"I am preventable disease."
This is a quotation from the "HEALTH
ALMANAC" which the United States Public
Health Service has published for the first time
this year. It calls your attention to the duty you
owe yourself and the world to fight PREVENT-
ABLE DISEASE. It also tells you how. The
Health Almanac is a booklet of forty-three pages,
with pictures. It contains all the information
about the sun and moon that other almanacs con-
tain. And for each month it has in addition
health hints of vital importance.

Daily Health Talks
GOING BACK TO NATURE.
BY DR. W. LUCAS.
People get sick because they go
away from nature, and the only way
to get well is to go back. Something
grows out of the ground in the form
of vegetation to cure almost every
ill. Some of these vegetable growths
are understood by man, and some
are not. Animals, it would seem,
know what to do when they are sick
better than men and women. Ob-
servers have noted that a sick horse,
dog or cat will stop eating food and
seek out some vegetable growth in
the field or yard, which, when found
and eaten, often restores appetite
and health. Haven't you seen these
animals do this very thing yourself?
Dr. Pierce, of Buffalo, N. Y., long
since found the herbs and roots pro-
vided by nature to overcome consti-
pation, and he had these vegetables
collected and made up of Mayapple,
leaves of Aloe, root of Jalap, into
little white sugar-coated pills, that
he called Dr. Pierce's Pleasant Pel-
lets. You must understand that
when your intestines are stopped up,
poisons and decayed matter are im-
prisoned in your system, and these
are carried by the blood throughout
your body. This does your head
ache, you get dizzy, you can't sleep,
your skin may break out, your appe-
tite declines, you get tired and
despondent. As a matter of fact, you
may get sick all over. Don't you see
how useless all this suffering is! All
that is often needed is a few of Dr.
Pierce's Pleasant Pellets, which he
has placed in all drug stores for
your convenience and health. Try
them by all means. They are prob-
ably the very thing you need right
now.

**CITY FACING
HOBO Famine.**
Yegg Squad, Which Meets All
the Freights, Has Seen
None in Days.
A hobo famine may be the
agreeable lot of Los Angeles
if present conditions continue.
According to the police yegg
squad, which meets all in-
coming freights, they have not
laid eyes on a hobo since the
killing of Detective Sergeant
Downey and the capture of
his alleged assassin.
"Usually we get at least
two 'boes from each train, and
there are six or seven freights
every day," Officer Parsons,
who was formerly Downey's
partner, said yesterday. "We
have not seen one since the
shooting. It may be the
hoboes themselves, or it may
be the friendly hushmen,
warn them to get off while
the getting is good. But we
keep looking for them."
Frank E. Fielding, Jr., Albert O.
Nelson, Thomas A. H. Ivins and
Irving B. Baltimore were admitted
to practice law, following an ex-
amination, by Division 1, District
Court of Appeal, yesterday.

Hon. George F. Edmunds.

"The choice of my
best customers,
Madam"
Ask your grocer. He knows
the high quality—the fine
flavor—the purity of every-
thing that bears the DEL MONTE
label. He knows the kind of people
who buy DEL MONTE Catsup in
preference to any other relish and
why.
Accept his judgment and try a bot-
tle of DEL MONTE Catsup on your
table. Serve it with hot or cold meats,
fish, game, salads and in soups and
gravies. Use it with left-over foods.
There are a hundred ways in which
the delicate ripe tomato flavor of
DEL MONTE Catsup will add zest and
variety to every-day meals.
Once you realize its many delicious
possibilities you will understand why
so many housewives can not get along
without it.

upon the Senate as a man of keen
intellect and power.
He took a leading part in the dis-
cussions of the Senate during the
turbulent reconstruction days, and
was active as one of his party lead-
ers in the impeachment of Presi-
dent Johnson. When Hayes and
Tilden were contesting the Presi-
dential election returns in 1876, Senator
Edmunds was one of the electoral
committee which placed Hayes in
the White House.
PRESIDENT OF SENATE
He was unanimously elected Presi-
dent pro tempore of the Senate when
Vice-President Arthur was called to
the White House by the assassina-
tion of President Garfield. As a par-
liamentarian he gained high reputa-
tion. Any member who ignored the rules
would promptly invoke the Sen-
ator's biting satire.
In 1882 he introduced a measure
for the suppression of polygamy in
Utah and the disfranchisement of
those who followed it. This act,
which came to be known as the Ed-
munds Act, was brought before the
Supreme Court, and upheld in de-
cisions that were given in a series
of cases. In 1890, the year before
he voluntarily retired from the Sen-
ate, he closed his long political car-
eer by helping to draw up the fa-
mous anti-trust law, which bears the
name of the Sherman Act.
In 1887 he became chairman of
the monetary commission appointed
by the Executive Committee of the
Indiana Monetary Conference.
